TO: All Project Personnel

FROM: Robert Miles, P.E.
Preconstruction and Standards Engineer
Utah Department of Transportation
Project Development

SUBJECT: 2008 Standard Specifications and Drawings

2008 is here. That means it is time to convert to the much anticipated 2008 Standard Specifications and Drawings.

The Standard Specifications and Drawings are available on the web site at <http://www.udot.utah.gov/go/2008standards>. Hard copies are due from the publishers on January 15 and will be available for purchase at either the Calvin Rampton Complex, the Association of General Contractors (AGC) offices or online at <http://www.udot.utah.gov/go/standardsbookrequests> (UDOT Region Offices should receive their shipments on or about that same date). 2008 Standard Specification Books will cost \$20.00 per copy and 2008 Standard Drawing Books will cost \$20.00 per copy. Shipping costs of \$5.00 per book will be added.

Projects that advertise before February 1, 2008, may be advertised using the latest versions of the 2005 Specifications. All projects advertising after February 1, 2008 need to be based on the 2008 Standard Specifications and Standard Drawings. If there is an instance where this is not possible contact us as soon as possible to work out a solution.
